## Directory Notes

The statistical summary portion of each stallion page includes statistics from North America (U.S., Canada and Puerto Rico), Argentina, Australia, England, France, Germany, Ireland, Italy and the United Arab Emirates (UAE) only.

All statistical information on each Stallion Directory page is complete for racing at least through Nov. 3, 2013.

**Compiled by the  
California Thoroughbred Breeders Association and  
The Jockey Club Information Systems Inc.**

The California Thoroughbred Breeders Association (CTBA) and The Jockey Club Information Systems Inc. have provided information on the racing, pedigree and produce records of horses in the Stallion Directory. These records are subject to constant change and revision, and as a result, the CTBA cannot guarantee their complete and total accuracy. The pages have been produced using Stakes Rules.

Statistics herein relating to results of races in North America are compiled from the *Daily Racing Form* charts by special arrangement with *Daily Racing Form Inc.* through Dec. 31, 1990. After that date, The Jockey Club Information Systems Inc. began using past performance information supplied by Equibase Company.

## On the Cover

Tribal Rule, a resident of Don and Karen Cohn's Ballena Vista Farm in Ramona, has been the leading sire of California-bred two-year-olds from 2010 to 2012.

### Breeders' Cup Eligibility

Information as to a stallion's Breeders' Cup eligibility for 2014 is provided on each Stallion Directory page. That information is provided by the stallion owner, not Breeders' Cup Ltd.

### Registered California Stallions

The Racing Law of California now requires stallion owners to annually register stallions standing in the state with the CTBA to qualify them and their offspring in that breeding season for certain benefits of the state's breeding incentive program.

**Listing of the stallion in this Stallion Directory as being a registered California stallion is done under the assumption the stallion will be registered by the deadline of Feb. 15, 2014.**

Annual stallion registration is the responsibility of the stallion owner. The CTBA assumes no liability if the stallion owner neglects to make the registration payment in timely fashion.

# 2014 California Stallion Roster

Horses included in the following list are those in active service in California for 2014. This roster was compiled from the 2013 Report Of Mares Bred (RMB) forms submitted to the CTBA Registrar and from additional information gathered, through late-November of 2013. Owners of stallions not appearing on this list should contact the CTBA to ensure their inclusion in subsequent editions. Horses in bold-face type appear in the 2014 California Stallion Directory.

# PEDIGREE CROSS INDEX

This Pedigree Cross Index allows a breeder to nick, inbreed or outcross his broodmares by easy reference. Indexed are the names of sires and dams included within the first three generations of all the stallions in the 2014 Stallion Directory.

Example: AFFIRMED – Bedford Falls, Make Music for Me, Many Rivers

In the above example, Affirmed appears in one of the first three generations of all the stallions listed after him.

Suppose a breeder has a mare that is a granddaughter of Bull Lea or has crosses of that sire in a mare's pedigree. He may want to breed her to a stallion with Northern Dancer blood to take advantage of the Northern Dancer—Bull Lea nick. By looking up "Northern Dancer" in this index, he can quickly see all the stallions in this register that have Northern Dancer appearing in one of the first three generations of their pedigrees.

If a breeder's mare is a granddaughter of Mr. Prospector, he may wish to inbreed to that stallion and thereby get more of Mr. Prospector's makeup in the foal. By checking "Mr. Prospector" in the index, the breeder can readily find all the advertised stallions that have Mr. Prospector in their pedigrees.

What if a breeder's mare is already inbred or linebred? She might have two or three crosses of Storm Cat in her first four generations for example. The breeder may want to make sure the stallion he chooses for his mare has no Storm Cat or no Storm Cat up close in his pedigree. By looking up "Storm Cat" in the index, he can readily see the stallions in this Stallion Register he should avoid for his mare.

### Horse Racing

In 2007, there were 71,959 horses who started in races in the United States, and the average Thoroughbred racehorse in the United States and Canada ran 6.33 times in that year [14]. In Australia, there were 31,416 horses in training during 2007, and those horses started 194,056 horses in training for ...
